

Letter from Hadassah International Chair and Director

Dear Hadassah International Colleagues,

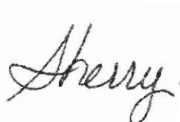

In 2012, Hadassah will celebrate 100 years of building the health infrastructure of Israel. A spectacular gala Centennial Convention in Jerusalem is being planned. The highlight of the Convention will be the dedication of the Sarah Wetsman Davidson Hospital Tower, which will be Israel's most advanced medical facility.

Together, we have the opportunity of a lifetime to experience this dedication and to celebrate Hadassah's impact on the landscape of Israel. But our Centennial Convention will include so much more, from meeting with some of Israel's most creative people to exploring its rich culture, from walking the beautiful pathways of Jerusalem to pre- and post-Convention tours of sights around the country.

Come with us to Jerusalem and celebrate the work of your hands in October 2012 where you will see what you have helped to create through your devotion to Hadassah International. We expect this event will be the largest Hadassah gathering ever. It will be a family affair, as well, with more than enough to keep you, your children and grandchildren engaged.

Please share this journey of a lifetime with us and your colleagues from around the world. Don't hesitate! Please sign up today.

Your partners in healing,

Sherry Altura
Chair

Melissa Kaplan
